SingerLewak Selects Tallie For Expense Report Management

Top 100 Accounting Firm Chooses Tallie for Its Client Accounting Services Practice

SAN JOSE, October 21, 2014 – [QuickBooks Connect](#) – [Tallie](#), the leading SaaS expense management innovator, today announced that SingerLewak LLP, a full service accounting, tax and advisory firm, selected Tallie's award-winning software as the [expense report](#) solution for its Client Accounting Services Practice.

"Tallie is a valuable enhancement to SingerLewak's client service capabilities," said Jim Pitrat, Managing Partner. "Tallie's superior accounting controls and the speed of its end-to-end expense workflow will create tremendous value for our clients – but what our partners and their clients are raving about most is, how easy it is to use."

"SingerLewak is on the forefront of the client accounting services trend and we are thrilled to be chosen as their only expense management solution for their clients, said Chris Farrell, CEO of Tallie. "Director Chelsey Miles brings remarkable insight and a strong, clear vision for this increasingly important aspect of the accounting industry. We look forward to working together to make valuable, customer-oriented services for years to come."

Tallie's cloud-based [expense management software](#) streamlines the entire expense management process from point of purchase through accounting integration. Designed to be a seamless component of modern day accounting services, Tallie provides industry-leading integration with major accounting systems and SaaS solutions for unmatched ease-of-use and accounting control. Tallie's integration with core accounting ecosystem applications includes Intuit's QuickBooks, Bill.com, Right Networks and SmartVault for a system-wide cloud-based ecosystem.
